

PHARMACIST REMS ORDER VERIFICATION TIPS

- Most REMS medications have a **'Reference Link'**, **BPA**, **Label/Prep Instructions Comment** or **REMS Order Questions** to "trigger" the pharmacist to know that a REMS medication is being reviewed (screen shot examples of each below).
- A few exceptions exist for some REMS medications that are for outpatient use/not stocked/restricted.

Examples:

REMS BPA

Important (1)

⚠ Please open I-Vent Type of REMS. Subtype of quizartinib (VANFLYTA) to document REMS enrollment.
