## Respiratory Inhaler Products and Therapeutic Substitutions for IDBH

### Formulary Agents:

Albuterol Sulfate HFA 90 mcg

Budesonide and formoterol fumarate dihydrate (Symbicort) 80/4.5 mcg, 160/4.5 mcg

Tiotropium bromide (Spiriva Respimat) 1.25 mcg

Tiotropium and Olodaterol (Stiolto Respimat®) 2.5/2.5 mcg

Mometasone (Asmanex)

Other products will be substituted as below:

| Non-formulary agent (generic/brand)                              | Formulary equivalent                                                                                    |
|------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Fluticasone furoate – vilanterol (Breo Ellipta) 100/25 mcg daily | Budesonide/Formoterol (Symbicort®) 80/4.5 mcg 2 puffs BID                                               |
| Fluticasone furoate – vilanterol (Breo Ellipta) 200/25 mcg daily | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID                                              |
| Fluticasone/Salmeterol (Advair®) 100/50 1 puff BID               | Budesonide/Formoterol (Symbicort®) 80/4.5 mcg 2 puffs BID                                               |
| Fluticasone/Salmeterol (Advair®) 250/50 1 puff BID               | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID                                              |
| Fluticasone/Salmeterol (Advair®) 500/50 1 puff BID               | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID                                              |
| Fluticasone/Salmeterol (Advair) HFA 45/21 (2 puffs BID)          | Budesonide/Formoterol (Symbicort®) 80/4.5 mcg 2 puffs BID                                               |
| Fluticasone/Salmeterol (Advair) HFA 115/21 (2 puffs BID)         | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID                                              |
| Fluticasone/Salmeterol (Advair) HFA 230/21 (2 puffs BID)         | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID                                              |
| Glycopyrrolate-formoterol-budesonide (Breztri)                   | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID + Tiotropium (Spiriva® Respimat) 2 INH daily |
| Ipratropium bromide (Atrovent HFA) 17 mcg                        | Tiotropium (Spiriva® Respimat) 2 INH daily                                                              |
| Ipratropium bromide and albuterol (Combivent Respimat)           | Albuterol MDI same dose and frequency + Tiotropium (Spiriva® Respimat) 2 INH daily                      |
| Levalbuterol (Xoponex HFA)                                       | Albuterol Sulfate HFA                                                                                   |
| Mometasone – formoterol (Dulera)100/5 mcg 2 puffs BID            | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID                                              |
| Mometasone – formoterol (Dulera)200/5 mcg 2 puffs BID            | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID                                              |
| Revefenacin (Yepelri)                                            | Tiotropium (Spiriva® Respimat) 2 INH daily                                                              |
| Umeclidinium (Incruse Ellipta)                                   | Tiotropium (Spiriva® Respimat) 2 INH daily                                                              |
| Umeclidinium-vilanterol (Anoro Ellipta)                          | Tiotropium and Olodaterol (Stiolto Respimat®) 2.5/2.5 mcg                                               |
| Umeclidinium-vilanterol-fluticasone (Trelegy Ellipta)            | Budesonide/Formoterol (Symbicort®) 160/4.5 mcg 2 puffs BID + Tiotropium (Spiriva® Respimat) 2 INH daily |
