

Legacy Health Do Not Tube List

Generic Name	Reason	Generic Name	Reason
Abatacept (Orencia)	1,2	Octreotide LAR (Sandostatin LAR)	1,2
Agalsidase beta (Fabrazyme)	1,2	Paliperidone injection (Invega Sustenna)	2
Albumin	1	Pegfilgrastim (Neulasta)	1,2
Aldesleukin (Interleukin-2, Proleukin)	1,2	Phenol	8
Alglucosidase alfa (Lumizyme, Myozyme)	1,2	Poractant Alfa (Curosurf)	1,2
Alprostadil (Prostin VR)	1,2	Prothrombin complex concentrate (PCC; KCentra)	1,2
Alteplase (Activase t-PA, reconstituted)	1,2,7	Quinupristin/Dalfopristin (Synercid)	1
Amphotericin liposomal (Ambisome)	1,2	Rasburicase (Elitek)	1,7
Antithrombin III (Thrombate III)	1,2	Remdesivir (Veklury)	1,2
Aripiprazole injection (Abilify Maintena)	2	Sargramostim (Leukine)	1,2
Benzocaine Spray	8	Sodium benzoate-Sodium phenylacetate (Ammonul)	2
Beractant (Survanta)	1	Somatrem (Protropin)	2,4
Botulinum Toxin A, Toxin B (Botox, Myoblock)	1,2	Tenecteplase (TNKase)	2,7
Chorionic Gonadotropin (Pregnyl, Ovidrel)	1,3	Total Parenteral Nutrition (TPN)	1
Colistimethate (Coly-Mycin M)	7,9	Treprostinil (Remodulin)	2,7
Corticotropin (HP Acthar Gel)	2	Vaccines: (COVID-19, Herpes Zoster, MMR, MMRV, Poliovirus, Rotavirus, Typhoid, Varicella, Yellow Fever)	1,7
Cyclosporine Oral Solution and Injectable (Neoral, Sandimmune)	1,3,10	Ziconitide (Prialt)	2
Daptomycin (Cubicin)	1	Other Groups	
Darbepoetin (Aranesp)	1,2	Cell Phones/ Electronics	11
Digoxin, Immune Fab (DigiFab)	1,2	Chemotherapeutic, antineoplastic agents	2,3
Dornase Alfa (Pulmozyme)	1	Controlled Substances unless using "secure tube" functionality	6
Epoetin (Epoetin, Procrit, Retacrit)	1,2	Leeches and Maggots	5
Epoprostenol (Flolan, Veletri)	1	Non-antineoplastic or reproductive risk agents unless in solid dosage forms	10
Etanercept (Enbrel)	1,7	Patient's Own Medications	11
Factor Products (VIIa, VIII, IX)	1,2	Research/ Investigational Medications	11
Fat emulsions (Intralipid, Liposyn)	1	Legend	
Fibrinogen (RiaSTAP)	1	1. Drug alteration, such as protein denaturation or cracking of emulsions, etc. 2. Expense 3. Biohazardous material including chemotherapy, radiopharmaceuticals, or other cytotoxic medications 4. Breakage 5. Living therapeutic modalities that may be harmed during transport 6. Controlled substances - security 7. OK to tube powder, but not reconstituted product 8. Explosive or flammable substances 9. Foaming 10. Solid dosage forms may be tubed 11. Difficult to replace and/or pose confidentiality issues	
Filgrastim (Neupogen, Nivestym)	1		
Ganciclovir (Cytovene)	3		
Human Growth Hormone (Protopin)	1,2		
Idursulfase (Elaprase)	1,2		
Immune Globulin (IVIG, HBV, Rabies, RhoD)	1,2		
Insulin vials (NPH, R, Aspart, Humalog, Novolog, Lantus)	1		
Interferon	1,7		
Laronidase (Aldurazyme)	1,2		
"mab" (anything that ends in "mab"; rituxiMAB, infliximAB)	1,2		
Magnesium Citrate	1,4		
Menotropin (Meopur, Pergonal, Repronex)	3		
Micafungin (Mycamine)	1		
"nib" (anything that ends in "nib";)	3		
Nitroglycerin spray (Nitrolingual)	8
