

# Amniotic Fluid Emboli Virtual Kit L&D, MBU, and EDs

- ❖ The Amniotic Fluid Emboli virtual kit will be available in Pyxis on override in the L&D, MBU, Alternative Birthing Center and EDs on April 28, 2022
- ❖ The same 3 meds will be in every kit

To access, follow these instructions:

1. Choose a patient and select Remove or Override. At the bottom of the next screen, select System Kits.
2. Select **OB Amniotic Fluid Emboli**. The medications will populate on the right side of the screen. Select Remove.
3. You will now be guided by Pyxis through pulling each of the 3 medications.
4. You may pull all of them or deselect those you don't want to pull
  - If you pull a med and don't use it, return it to the PYXIS

Date: 4/26/2022

Intended Audience Nursing: All Pyxis Users  
Direct Questions to: Local Pharmacy
